

### 8-7-4. Waveform CSV data

Waveform data can be saved in CSV format.

Right-click in waveform display area and select [Export to CSV] from the displayed menu. Numerical values of all displayed waveforms are output.

**(Note)**

It is output in the format according to the "Math" and "Format" settings at the top of the displayed waveform.

Example of CSV file

When Math=F, Format=Raw

	A	B
1	Time (s)	P0 F(162,76)
2	0	9653.44444
3	0.00133	9653.55556
4	0.00266	9653.11111
5	0.00399	9652.77778
6	0.00532	9654.11111
7	0.00665	9655.66667
8	0.00798	9656.55556
9	0.00931	9655.11111

When Math=F-F(0), Format=%

	A	B
1	Time (s)	P0 dF(162,76)
2	0	0.054126264
3	0.00133	0.055277887
4	0.00266	0.050671396
5	0.00399	0.047216528
6	0.00532	0.061036
7	0.00665	0.077158717
8	0.00798	0.086371698
9	0.00931	0.071400603
